

an output means;

controlling the digital electrical computer processor to manipulate electrical signals to compute the system-determined purchase price for the property in consummating a sale; and

generating the financial analysis output including the offering [memorandum] document at said output means.

58. (Thrice Amended) A method for making financial analysis output including an offering [memorandum] document having a system-determined purchase price for property in consummating a sale, the financial analysis output being made by steps including:

converting input data representing the property, wherein the property includes a fixed-income asset, into input digital electrical signals representing the input data;

providing a digital electrical computer system controlled by a processor electrically connected to receive said input digital electrical signals and electrically connected to an output means;

controlling the digital electrical computer processor to manipulate electrical signals to compute the system-determined purchase price for the property in consummating a sale; and

generating the financial analysis output including the offering [memorandum] document at said output means.

II. REMARKS

The Examiner is requested to consider the application in view of the foregoing amendment and the following remarks. It is believed that the amendment adds no new matter.
